TO WHOM IT MAY CONCERN

I am pleased to write a few lines about Ms. Nada Ali Ahmad Alshehri who is known to me as a student in the CSSD program of Saudi Commission for Health Specialties.

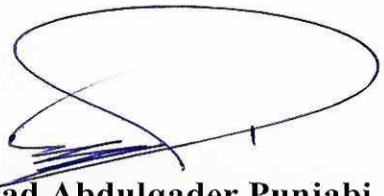
Ms. Nada has successfully completed all her courses with excellent grades. During the program in the Microbiology module and Decontamination area module, I found her to be an enthusiastic, hardworking, and goal-oriented student. She accomplishes all the tasks given to her. She is truly dependable and always willing to put in extra effort to learn. She secured excellent grades for her hard work.

Ms. Nada is a motivated person and has the drive to acquire new knowledge and practical skills in the field of her interest. She has a pleasant personality and gets along very well with her colleagues.

I strongly recommend Ms. Nada for any company she wishes to apply for. A company that hires such brilliant people would be a great asset for the future.

Please feel free to contact me should you require further information.

Sincerely Yours,



Ahmad Abdulqader Punjabi
